

Comments of a few students

1. Just loved the course. The learning experience will help me lead my team of teachers. Met many interesting people, as the groups keep on changing. The interaction was excellent. Thank you ma'am for firing us up to do better and better.

2. My friend Amandeep & I came from Raipur, Chhattisgarh to do this course. We both benefitted too much. I liked the session on Attitudes. I am slightly negative. I learnt the importance to try and be positive. I have become confident, and my personality has changed greatly. This is all because of you.

3. This was an 8 evening course, from 6 p.m. to 8.30 p.m. Every morning, I just waited for 6.p.m. I was encouraged to share my opinion at the group discussions. This excited me. The Focused Approach helped us to be focused when we speak. This is very important for a good speaker, and also to write. I also liked the role play. My self esteem has definitely grown.

4. I came to do this course in preparation for the civil services interview. The training on voice modulation and body language was what I needed. At the end of the course I must add: You are a very competent teacher; Thorough mastery over the subject, and absolutely pleasant demeanour. I wish the course was longer.

5. I thoroughly enjoyed the Sales presentation. It opened a great view of marketing as a career. I am becoming curious about this. Advertise more, as more people need this workshop, but are not aware of it.

6. I study in the U.K. and am home on holiday, before my internship. The teacher is very encouraging. She said I had a great voice, which needs to be more expressive to be effective. I liked the sessions. The experience was terrific. Ms. D'Cunha has good diction, and the content of the course was very clear. I will be going back with a lot of information & happy memories.
